

Write a scene

Write a small scene. In this scene, you will present a landmark of the city.

The challenge : build a small short exciting situation.

Example :

you present your favorite cafe in town

Here you buy a cappucino - you get a cup to go

You want to go towards the camera - but a person bumps you and the coffee is spilled.

Or another example

You want to show a museum in your city, you have to take the bus.

You tell the audience : So now we are going by bus.

You look at the clock: Oh dear, you are already so late...

And you start running. We see you running down the streets - up a flight of stairs - you come around the corner...the bus leaves....

But

it was the wrong bus anyway

the right one is coming now

Set your imagination free!
